THE ORIGINAL NAME IN BATHROOMS
THOMAS
CRAPPER
EST. 1861

He started a business and created a legend...

In 1861 Thomas Crapper set up a plumbing and sanitary engineering business. He quickly gained a reputation for high quality work. As the business grew Thomas realised that there was a sizable market for high quality bathrooms and toilets in addition to his services as a plumber. This led him to open the world's very first bathroom showroom in 1870 to complement his plumbing services. Today we retain that same pride in the quality of product that Thomas himself set and now offer a wide range of exceptional bathroom products.

For over 150 years Thomas Crapper & Co. has been true to the ethos that if you buy the right quality you only have to buy once. This is the attitude which has seen the company awarded several Royal Warrants.

Sometimes it is the little things that make a difference. Our attention to detail leads us to find the very finest products which we are delighted to share with you in this brochure. We call these details "The Crapper Difference" and we are sure you will enjoy exploring them.

All our products have been developed using the highest quality materials and traditional manufacturing techniques whilst incorporating the necessary advances in technology to suit modern plumbing practices without affecting the integrity of the product.

Whether you are looking for a spectacular showpiece for your downstairs loo, a stunning feature bathroom or some top-quality accessories, we are certain you will find items to inspire and delight.

We hope you enjoy looking through our brochure and if you have any questions please do not hesitate to contact us or one of our growing network of bathroom retailers.

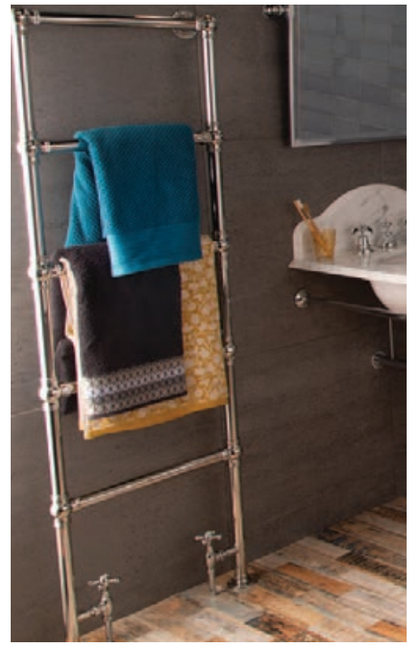
SINGLE MARBLE WASHSTAND AND VICEROY® WC SET

The Crapper Difference

This beautiful washstand is carefully manufactured in the UK from the highest quality brass tubes and selected Statuarietto marble, re-creating the glamour of years gone by.

The Crapper Difference

This image highlights the beautiful style of the Viceroy WC set showing off the polished aluminium cistern, which is absolutely unique in the bathroom market.



All Thomas Crapper heated towel rails are manufactured in the UK from the highest quality brass tubing.

These washstand counter tops are available in Statuarietto (as shown) and Grigio Carnico marble, as a single or double option.

VICEROY®

WC SET WITH HESKETH BATH

The Crapper Difference

The Viceroy is our first close-coupled WC set of the modern era. The cistern is uniquely manufactured from cast aluminium and features our iconic 'Beer Pull' flushing mechanism.

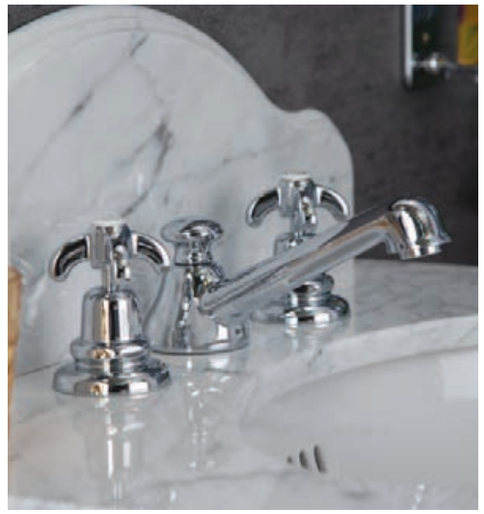
RESOLUTE®

ONE TAP-HOLE BASIN

THOMAS CRAPPER
EST. 1861

The Crapper Difference

The Resolute washbasin displays the Union flag in the soap recesses, a proud reference to our British heritage.



The 1920 three tap-hole deck basin mixer is superbly proportioned to complement our basins or marble washstands.
(Shown here in chrome)

THOMAS CRAPPER BABY BATH

Our unique Thomas Crapper baby bath comes with a personalised message to commemorate those special occasions.

MARLBOROUGH® POTTERY

WITH LEIGHTON BATH

The Crapper Difference

Our Marlborough basin has a 'gated' overflow. It takes skilled craftsmen to create this authentic and beautiful feature.

THOMAS CRAPPER
EST. 1861

Our 814 cast cisterns are available pre-finished in 'Crapper' Red, British Racing Green, White and Matt Black *(as shown)*.

THE MARLBOROUGH® BASINS IN WHITE

The inspiration for our Marlborough basin range is this original washbasin from our 1908 catalogue. Thomas Crapper is often copied but seldom surpassed in style and design.

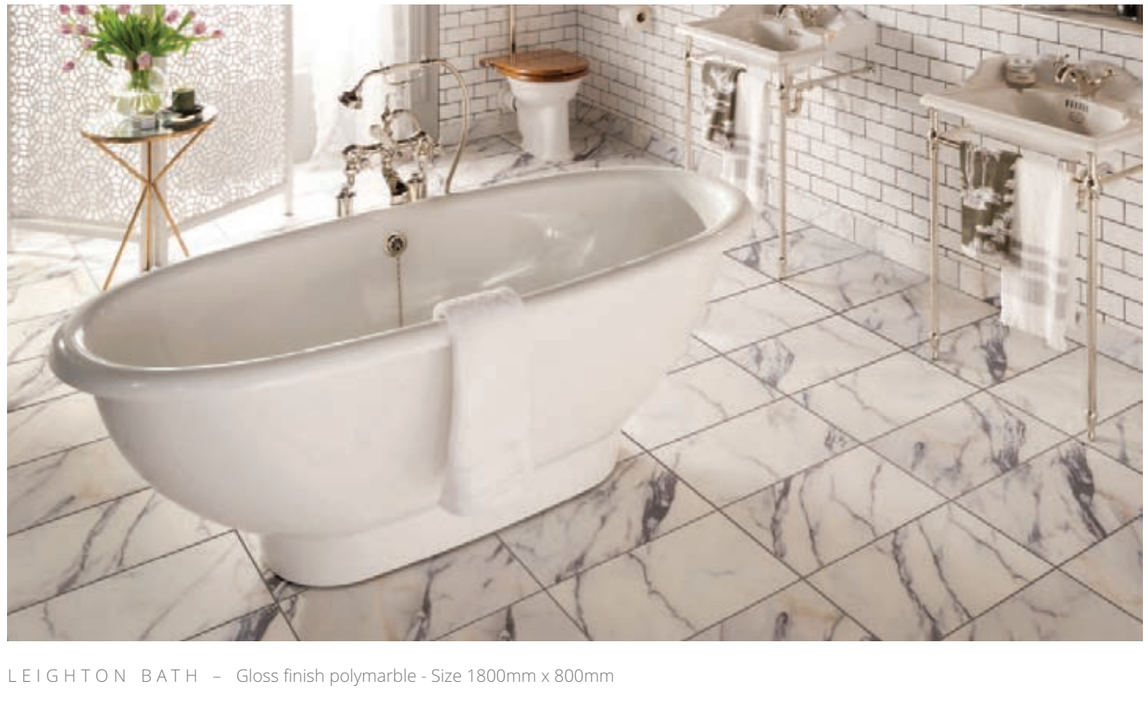
Marlborough 635mm basin, shown here in the one tap-hole version with a Marlborough monobloc basin mixer and washstand in nickel.
See page 64 for basin details.

Venerable WC pan and oak 'D' shaped seat with Marlborough ceramic high-level cistern shown with nickel plated flushpipe and brackets.

THOMAS CRAPPER
EST. 1861

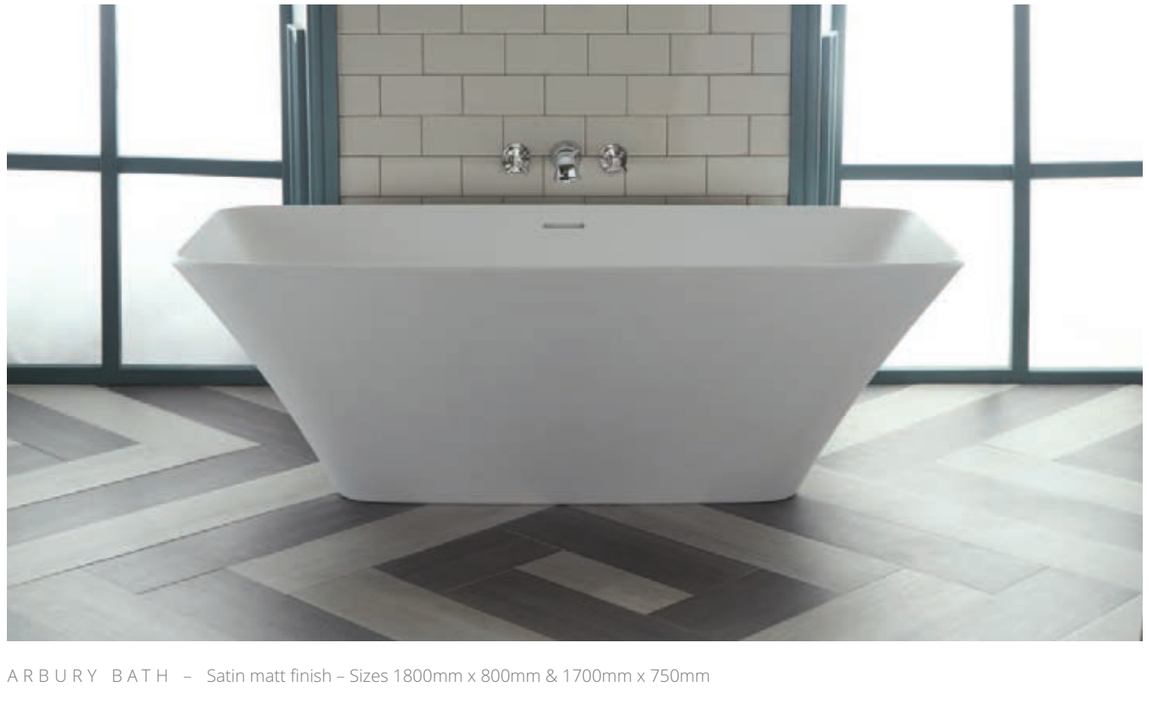
THOMAS CRAPPER BATH RANGE

Our range of baths is comprised of three solid surface baths (Hesketh, Arbury and Caton) plus one polymarble bath (Leighton).



L E I G H T O N B A T H – Gloss finish polymarble - Size 1800mm x 800mm

H E S K E T H B A T H – Satin matt finish – Sizes 1800mm x 800mm & 1700mm x 750mm



A R B U R Y B A T H – Satin matt finish – Sizes 1800mm x 800mm & 1700mm x 750mm

C A T O N B A T H – Satin matt finish – Size 1700mm x 750mm

REGENT BASIN UNIT

The Crapper Difference

Our tilting mirrors are beautifully made with solid brass brackets and bevelled glass.

THOMAS CRAPPER
EST. 1861

The Regent framed wall mirror can be mounted in a portrait or landscape position, allowing for different installation requirements. The Classical Globe lights also shown in this image are available in Chrome, Nickel or Polished Brass finishes.

(Shown here in Gooseberry Green)

◀ 635mm Regent basin unit made from solid and veneered oak, available in four colours, shown here in charcoal. For use with the Marlborough 635mm basin.
See page 61 for range details.

Our Classical bathrack shows British craftsmanship at its finest. This piece has over 70 hand soldered and polished joints.

DOWNHAM® CLOAKROOM BASIN WITH 814® BLACK CISTERN

The Crapper Difference

Our Downham cloakroom basin is hand-crafted in the UK from fine fireclay, an ideal material for high quality bathroom products.

DOWNHAM® CLOAKROOM BASIN WITH 814® RED CISTERN

THOMAS CRAPPER
EST. 1861

Our White fireclay cloakroom basins are also available without the Thomas Crapper logo plaque on the front, but with a glazed logo inside, to offer a more subtle option.

The Downham cloakroom basin with its central 'weir' overflow is unique and will add a certain panache to any bathroom scheme.

(Shown here with Darby brackets)

The 814 polished aluminium cistern is fast becoming one of our best sellers, available as a high-level or low-level option, allowing for flexibility of installation.

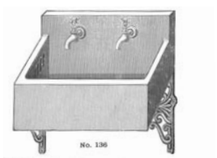
THOMAS CRAPPER
EST. 1861

High-level 'Crapper Red' 814 cistern.

HARWOOD BASIN IN BLUE ANTHRACITE GLAZE

The Crapper Difference

Our craftsmen apply a hand sprayed artisan glaze to create a unique finish that we call Blue Anthracite.



The Harwood and Downham cloakroom basins take their design styling from the original fireclay basins, first seen in our catalogue of 1901.

Herald WC pan with white painted, solid wood Throne seat and our high-level 814 white cistern. Also shown here is the Harwood cloakroom basin and 1920's wall-mounted brassware.

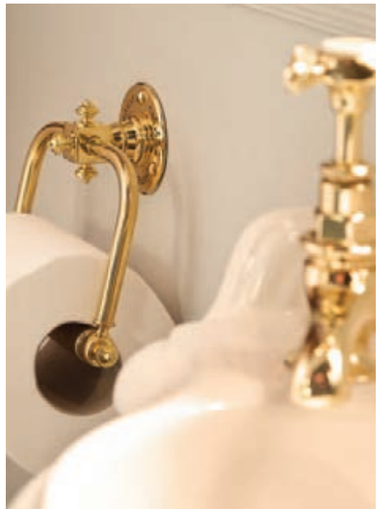
HARWOOD CLOAKROOM BASIN

WITH WHITE 814® WC SET

MARLBOROUGH® CLOAKROOM
WITH SOLID BRASS CISTERN

THOMAS CRAPPER
EST. 1861

The 814 cast cisterns are accurate copies of an original cistern that we still have in the company museum, an image of it can be seen here in a page from our 1907 catalogue.



The authentic detailing of our Marlborough accessories is unparalleled. Shown here is our polished brass paper holder.

◀ Venerable WC pan with charcoal grey coloured Throne seat and high-level solid brass cistern, with polished brass flushpipe and brackets.

TWO TAP-HOLE MARLBOROUGH® CLOAKROOM BASIN

The Crapper Difference

Our waste and plug sets are made from more than ten individual components. The rubber of the plug is moulded slightly oversized so it continues to fit the waste as the decades go by.

See page 63 for range details.

BACK TO WALL VENERABLE WC PAN

The Crapper Difference

The Venerable back-to-wall WC pan is a practical addition to our range, offering flexibility for installations.

SHEVINGTON CONSOLE BASIN

The Crapper Difference

The Shevington console basin is an imposing piece, measuring 1000mm wide, it will be a beautiful focal point for any bathroom.

The Comtesse range is available in all white. However if you prefer a splash of colour we offer two-tone heritage glazes. Sea Mist, a gentle green, or Crème Anglaise, a subtle cream tone (as shown).

Comtesse WC pan and low-level cistern, shown here in Crème Anglaise with nickel plated flush pipe and mahogany Oval seat.

Elegant double soap dispenser, shown here in nickel.

COMTESSE® THREE TAP-HOLE BASIN

The Crapper Difference

The Comtesse basin has an authentic anti-splash roll that gives the impression of an 'undermounted' basin. This allows for the unique two-tone colour scheme, as shown here in Sea Mist.

DOUBLE MARBLE WASHSTAND & WALL-HUNG VENERABLE WC PAN

The Crapper Difference

Our freestanding bath filler has a unique 'on/off' valve on the end of the spout so you can top up the water from the comfort of your bath.

DOUBLE WASHSTAND WITH OVAL BOWLS AND SPITFIRE TAPS

The Spitfire monobloc basin tap has a unique collar around the spout that operates the pop up waste.

The wall-hung Venerable WC pan has lovely detailing that make it the perfect solution for a classic bathroom design.

ORIGINAL 814®
LOW-LEVEL WC SET
WITH 560MM
MARLBOROUGH® BASIN

Please note: the letters and outline of the cartouche are supplied in the same colour as the cistern. They may be painted onsite to your own requirements.

The Crapper Difference
The iconic Thomas Crapper low-level 814 cistern has our unique 'Beer Pull' flush handle.

THOMAS CRAPPER
EST. 1861

This decorative holder is made specifically for the Thomas Crapper range of liquid soaps and hand lotions. See page 93 for details.

PERSONALISED 814® HAND CAST CISTERN

The Crapper Difference

Our 814 cast cisterns can be custom made with any name cast into the cartouche. You may have your family name, the name of your property or any other words* cast permanently into the cistern body.

**Good taste and length of message terms apply.*

MARLBOROUGH® ROUND WASHBASIN AND PEDESTAL

The Crapper Difference

This stylish washbasin is available with one tap-hole, two tap-holes and three tap-holes to give you a choice of brassware options.

Deck mounted three tap-hole basin mixer, perfectly proportioned and beautifully made.

Our truly authentic Marlborough tap is a perfect replica of the 1890 original but is now fitted with a ceramic disc to allow for modern plumbing practices.

1920 Dual function concealed thermostatic shower (complements the 1920 Cross-Head and Lever brassware ranges).

THOMAS CRAPPER
EST. 1861

The Marlborough accessory range was created by taking design pointers from an original Victorian candle holder, making the product both beautiful and authentic.

The Classical accessories are hand-crafted in the UK and represent one of the widest ranges of traditionally styled accessories on the market.

Our Elegant accessory range is made from solid brass, it is supplied unbranded and there are many unique options available.

Classical lights are available in two styles; Deco and Globe. Both styles are available in chrome, nickel and polished brass, they are supplied unbranded.

Dirk Bogarde crosses the road in front of Thomas Crapper & Co's bathroom showroom in Harold Pinter's film 'The Servant'.

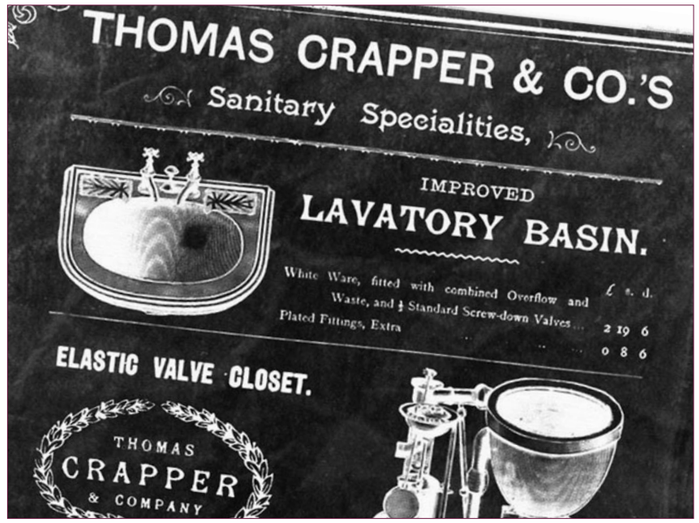
THOMAS CRAPPER
EST. 1861

This iconic image from 1963 serves to remind us of our heritage, and the fact that Thomas Crapper opened the world's first bathroom showroom in Chelsea, London in 1870.

The showroom excelled in supplying high quality bathroom products with superb customer service. This ethos continues today and although we no longer own the Chelsea showroom we now have a carefully selected network of independent bathroom specialists all of whom continue in the spirit of the original 'Crapper' showroom.

For details of your local approved showroom please visit our website **www.thomas-crapper.com** or call **+44 (0) 1789 450522.** We'll be happy to advise you.

OUR HISTORY, OUR LEGACY, OUR PRIDE



1836

Thomas Crapper born in Thorne - Yorkshire.

1853

Thomas is apprenticed as a plumber to his brother George in Chelsea.

1861

Thomas Crapper & Co Ltd. is established, based at Marlborough Cottages, Chelsea.

1870

Thomas created the world's first bathroom showroom in Marlborough Road, Chelsea.

1881

Thomas Crapper & Co Ltd. receives its first patent for ventilating household drainage.

1886

Thomas Crapper & Co Ltd. were engaged by The Royal Household to replace the sanitaryware and drainage at Sandringham House.

1886

Thomas Crapper & Co Ltd. awarded its first Royal Warrant as a result of the work carried out at Sandringham House.

1888

The company receives its second patent for an improved waste trap.

1892

The company supply more bathroom products for Sandringham House, following a devastating fire and extra accommodation being built.

1893

Another patent, this time for a foot lever operated water closet.

1900

The iconic 814 "valveless waste preventer" toilet cistern is introduced.

1901

The company receives its second Royal Warrant from HRH Prince of Wales.

The company then receives its third Royal Warrant from His Majesty King Edward VII.

1904

Thomas Crapper retired and sold the business to his nephew George Crapper and business partner Robert M Wharam.

The company is incorporated with companies house.

1907

Thomas Crapper & Co Ltd. purchased 120 Kings Road, Chelsea for a new bathroom showroom.

1910

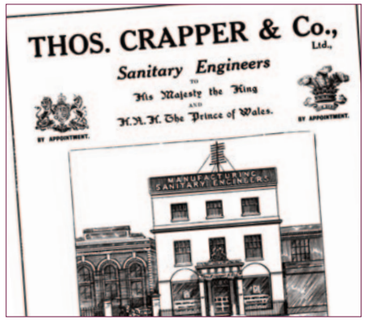
Thomas Crapper died and is buried in Elmer's End Cemetery, Beckenham, Kent.

1911

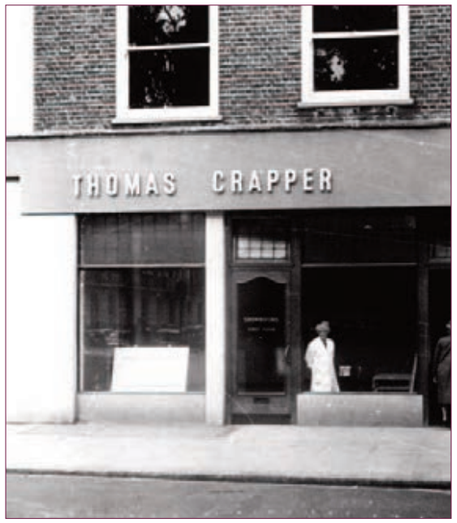
The company receives its fourth Royal Warrant from His Majesty George V.

1914 -1918

The Great War.



YOUR CHOICE, YOUR DELIGHT, YOUR SATISFACTION



1920s

The company continues to trade from 120 Kings Road building a strong reputation for high quality products and services.

1925

Robert M Wharam Chairman of Thomas Crapper & Co Ltd. is appointed President of the Royal Warrant Holders Association.

1937

The Marlborough works are sold and a large extension is built onto the back of 120 Kings Road for use as a factory and warehousing.

1939 - 1945

World War II.

1963

When RG Wharam dies leaving no heirs the company is sold to another London based sanitaryware company Boldings Ltd.

1969

The assets of Boldings Group (including Thomas Crapper & Co Ltd.) are purchased by Mr Stephen Cowell.

1969-1998

The company lies dormant under the ownership of Mr Cowell.

1999

Simon Kirby buys the business and re-launches Thomas Crapper & Co Ltd. with a striking range of authentic products.

2000

Hatfield Church (close to Thomas's birth place of Thorne, Yorkshire) installs a stained glass window featuring a toilet to celebrate Thomas Crapper's life.

2005

Tim FitzHigham, the celebrated British comedian and author, rows the channel in a Thomas Crapper bath. A limited edition WC pan is created in honour of the fact.

2011

A Thomas Crapper toilet and washbasin are installed in Westminster Abbey in time for the Royal Wedding of HRH Prince William and The Duchess of Cambridge. At a similar time, a Thomas Crapper bathroom is installed in the Royal Suite of The Goring Hotel prior to the Duchess's pre-wedding stay at the hotel.

2016

Thomas Crapper & Co Ltd. is purchased by Hartford Holdings Ltd., a family business based in Yorkshire.

2020

The Thomas Crapper team produce another brochure filled with many new products, all faithful to the legacy and quality of Thomas Crapper.

Cast metal cisterns and brackets

We are proud that all our metal brackets and cisterns are cast by hand, they are not machine made. This means that on occasion there will be surface marks or imperfections, our brackets and cisterns are then polished by hand and most of these surface marks will be removed. We consider these to be part of the beauty and authenticity of our products, and as such we ask for your understanding of the hand-made nature of the products.

Product Guide

Please note: All prices include VAT.

Close-coupled sets

Urinals

Product Code:
TCURMI901BACKWH Miami Urinal (Back fill) White
TCURMI901TOPWH Miami Urinal (Top fill) White

Price: £599.00

Notes: The Miami back fill urinal is suitable for concealed installations, where the urinal bowl supply pipework is 'in the wall', (we do not supply this pipework).

The Miami top fill urinal is suitable for exposed installations, where the urinal bowl supply pipework is exposed on the surface of the wall, (we do not supply this pipework).

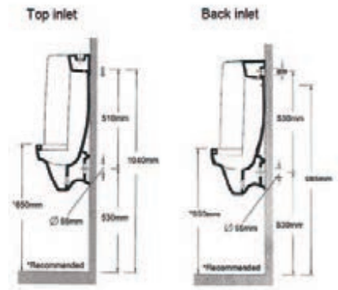
Urinal Cisterns

Product Codes - Conversion for CONCEALED installation:
TC814URCONPB - Polished Brass
TC814URCONCP - Chrome
TC814URCONNP - Nickel

Product Codes - Conversion for EXPOSED installation:
TC814UREXPPB - Polished Brass
TC814UREXPCP - Chrome
TC814UREXPNP - Nickel

Colours available:
(PB) Polished Brass
(CP) Chrome
(NP) Nickel

Price: All Thomas Crapper cast metal cisterns can be converted into urinal cisterns, the additional cost for this conversion is: £65.00.



The Miami urinals are supplied with a ceramic waste cover, inside the bowl. This waste cover has a Thomas Crapper 'Bee' logo fired into the glaze. Historically Victorian urinals had a bee motif applied as a Victorian gentleman's joke and a nod to their classical education, because the Latin for bee is apis!

Hesketh freestanding solid surface bath

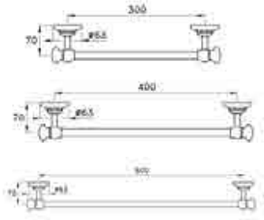
Elegant 300mm/400mm/600mm towel bars



Product Code: 300mm
TCACEL602/30PB | TCACEL602/30CP
TCACEL602/30NP

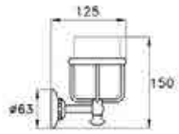
Product Code: 400mm
TCACEL602/40PB | TCACEL602/40CP
TCACEL602/40NP

Product Code: 600mm
TCACEL602/60PB | TCACEL602/60CP
TCACEL602/60NP

Colours available:
(PB) Polished Brass | (CP) Chrome
(NP) Nickel

Price: £259.00 - 300mm
Price: £279.00 - 400mm
Price: £299.00 - 600mm

Elegant wall mounted tumbler holder



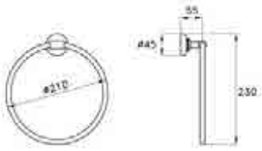
Product Code:
TCACEL1012PB | TCACEL1012CP
TCACEL1012NP

Colours available:
(PB) Polished Brass | (CP) Chrome
(NP) Nickel

Price: £199.00

Notes: Tumbler and soap dispenser not included in price. See below.

Elegant towel ring

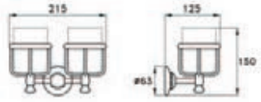


Product Code:
TCACEL603PB | TCACEL603CP
TCACEL603NP

Colours available:
(PB) Polished Brass | (CP) Chrome
(NP) Nickel

Price: £169.00

Elegant wall mounted double tumbler holder



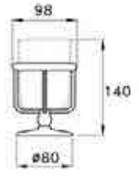
Product Code:
TCACEL1015PB | TCACEL1015CP
TCACEL1015NP

Colours available:
(PB) Polished Brass | (CP) Chrome
(NP) Nickel

Price: £259.00

Notes: Tumbler and soap dispenser not included in price. See below.

Elegant freestanding tumbler holder

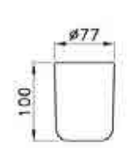


Product Code:
TCACEL1014PB | TCACEL1014CP
TCACEL1014NP

Colours available:
(PB) Polished Brass | (CP) Chrome
(NP) Nickel

Price: £209.00

Elegant glass tumbler - satin glass



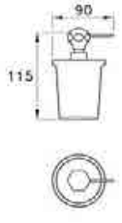
Product Code:
TCACELB012SG

Colours available:
(SG) Satin Glass

Price: £29.00

Notes: For use with TCACEL1012, TCACEL1014 and TCACEL1015.

Elegant soap dispenser in ceramic



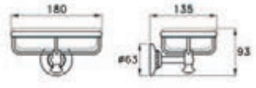
Product Code:
TCACELDO19PB | TCACELDO19CP
TCACELDO19NP

Colours available:
(PB) Polished Brass | (CP) Chrome
(NP) Nickel

Price: £139.00

Notes: For use with TCACEL1012, TCACEL1014 and TCACEL1015.

Elegant wall mounted soap dish holder



Product Code:
TCACEL1022PB | TCACEL1022CP
TCACEL1022NP

Colours available:
(PB) Polished Brass | (CP) Chrome
(NP) Nickel

Price: £239.00

Notes: Soap dish not included in price. (See page 88).

Please note: Elegant accessories are supplied unbranded.

Elegant Accessories

Please note: All prices include VAT.

Elegant freestanding soap dish holder

Product Code:
TCACEL1024PB | TCACEL1024CP
TCACEL1024NP

Colours available:
(PB) Polished Brass | (CP) Chrome
(NP) Nickel

Price: £249.00

Elegant soap dish - satin glass

Product Code:
TCACELP022SG

Colours available:
(SG) Satin Glass

Price: £29.00

Notes: For use with TCACEL1022 and TCACEL1024.

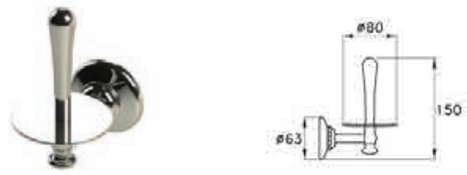
Elegant toilet roll holder with cover

Product Code:
TCACEL1032PB | TCACEL1032CP
TCACEL1032NP

Colours available:
(PB) Polished Brass | (CP) Chrome
(NP) Nickel

Price: £229.00

Elegant spare paper holder



Product Code:
TCACEL1035PB | TCACEL1035CP
TCACEL1035NP

Colours available:
(PB) Polished Brass | (CP) Chrome
(NP) Nickel

Price: £189.00

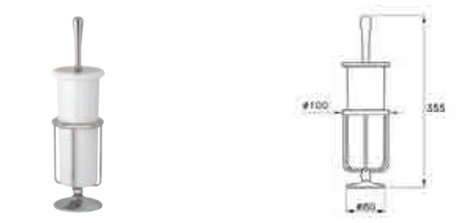
Elegant wall mounted toilet brush

Product Code:
TCACEL1052PB | TCACEL1052CP
TCACEL1052NP

Colours available:
(PB) Polished Brass | (CP) Chrome
(NP) Nickel

Price: £369.00

Elegant freestanding toilet brush



Product Code:
TCACEL1054PB | TCACEL1054CP
TCACEL1054NP

Colours available:
(PB) Polished Brass | (CP) Chrome
(NP) Nickel

Price: £369.00

Elegant wall mounted towel holder

Product Code:
TCACEL1066PB | TCACEL1066CP
TCACEL1066NP

Colours available:
(PB) Polished Brass | (CP) Chrome
(NP) Nickel

Price: £509.00

Elegant double robe hook

Product Code:
TCACEL1082PB | TCACEL1082CP
TCACEL1082NP

Colours available:
(PB) Polished Brass | (CP) Chrome
(NP) Nickel

Price: £149.00

Please note: Elegant accessories are supplied unbranded.

(NP) Nickel

Price:
£179.00

Warranties and General Product Notes (UK and Ireland)

All guarantees offered here are subject to the products being installed, maintained and cleaned in accordance with our guidelines. If products are not installed, maintained or cleaned in this manner any guarantees may be rendered invalid. We strongly recommend that you use an experienced plumber, ideally one who is a member of a recognised trade body for the installation of your new Thomas Crapper products.

Vitreous China (Pottery)

Vitreous china is an extremely durable, non-porous material; however, it is also a brittle material and should not be subjected to undue stress. Particular care should be taken when fitting basin waste fittings, taps and the screws for WC Pans. Thomas Crapper and Company pottery carries a **25-year** guarantee against failures caused by **manufacturing defects.**

Taps and Showers

Thomas Crapper taps carry a **10-year** mechanical guarantee against manufacturing defects. This guarantee excludes plated or polished surfaces and replaceable parts that are subject to normal use and wear such as washers, ceramic discs etc.

Our showers have a **2-year** mechanical guarantee against **manufacturing faults** in material and workmanship.

Furniture

Thomas Crapper bathroom furniture is manufactured from a combination of solid and veneered wood panels and frames. Whilst every care is taken in the manufacture of this furniture, due to the nature of the products there may be slight variations in grain pattern and colour between individual pieces, this is considered part of the appeal of natural timber. Our furniture products are guaranteed against **manufacturing defects** for a period of **2-years.**

Basin stands

Basin stands are guaranteed against **manufacturing defect** for a period of **5-years**, this guarantee excludes plated or polished finishes.

Seats

Thomas Crapper toilet seats are carefully manufactured from solid timber, which is then lacquered for protection, however water should not be allowed to remain on the seat for any length of time. As timber is a natural product some variation in grain a colour may occur between individual pieces. Our toilet seats are guaranteed against **manufacturing defect** for a period of **2-years**.

Cistern fittings

All Thomas Crapper WC pans and cisterns are designed to flush at 6 litres in accordance with the required standards. Cisterns are supplied with the appropriate flushing valves, levers and flush pipes to ensure optimum performance. We cannot accept any responsibility for product performance where products have been badly installed or substitutions have been made. Cistern fittings are guaranteed against **manufacturing defect** for a period of **2-years**.

General Installation Instructions

Thomas Crapper products are manufactured to the highest standards, with each piece subject to many quality control steps throughout the manufacturing process. Vitreous china manufacturing is a craft, not a machine finished process; this means that some variation may occur between individual pieces of sanitaryware, this is perfectly normal and within the accepted industry quality parameters.

Please see below some important notes on particular details regarding the installation of our products.

Screws

We supply BRASS or STAINLESS STEEL slotted-head screws, which cannot rust, with our products. Modern, cross-head screws should not be used, as most cross-head screws are made of ordinary steel; they will corrode over time (even if they are zinc plated) and damage can be caused to the product. This applies even to screws that are out of sight; for example, inside the cistern.

Inlet valve

The cistern inlet valve must be adjusted so that the cistern fills to the water line, marked 'WL' or Water Line inside, this is to ensure that the cistern meets water regulations.

Brackets

The brackets for our cisterns, basins and seats are 'handed', that is, one is made to be seen from the left, while the other is cast to be viewed from the right. Please ensure that they have been installed correctly.

Water-flow restrictor

A water-flow restrictor is supplied in the flushing fitting pack of the high-level cisterns. This plastic disc (with a hole in the centre) should be fitted into the inlet hole of the WC pan before fitting the translucent 'finned' internal connector, which is supplied with the WC.

General Care Instructions

We suggest that all Thomas Crapper & Co Ltd. products are installed in compliance with current Water Regulations by a qualified plumber, preferably one who is registered with a recognised trade body.

Vitreous china items (pottery).

These should be cleaned using a mild cream cleaner, it should be applied using sponge or damp cloth, then rinsed thoroughly using clean water. Do not use abrasive or highly caustic cleaners (e.g. Mr Muscle).
We recommend that you do not place bleach or water colouring blocks inside the cisterns.

Nickel and Chrome plated items.

Plated items should be cleaned using warm, soapy water, then dried with a soft cloth. Occasionally, a non-abrasive brass or chrome polish can be used if necessary to remove stubborn stains. Please do not use bleach, de-scaling solutions or abrasive cleaning products as these may damage the plated surface.

Polished Brass items.

These products are made of solid brass, which is hand-polished. No lacquer or plating has been applied. This finish will need regular polishing to maintain its lustrous shine. We suggest the use of a proprietary brass polish, such as Brasso.

Wooden items.

Products such as wooden seats should be cleaned with a mild antibacterial liquid on a damp cloth. The seat should be dried with a separate dry cloth. Please do not soak or use bleach. Splashes or condensation should be wiped from the surface as soon as possible. Once fully dry after cleaning, the seat can be polished with a non-silicone wax.

Painting Instructions.

814 Cast Metal Cisterns (Primed ready for painting)

We suggest that you begin with an oil-based under-coat, followed by one or two applications of an oil-based top-coat. We recommend 'eggshell' or 'satin' finish, but gloss can also be used if preferred. Several coats applied with a brush looks more traditional if you require an authentic finish.

Please ensure that the underside of the cistern lid is also painted, together with the inside of the cistern body to a depth of appx. 100mm, from the top.

Please Note: If you use water-based paint, you may have to apply several coats. This is because the water in the paint can cause oxidisation of the cast iron brackets and brown stains may appear in the paint. This should do no harm and once dry the water-based paint will cause no further rusting but you may have to apply several coats to cover the brown patches.

Picking-out the letters on the front of the body.

It is not essential to paint the letters on the front of the cistern as they are cast to stand proud of the cistern body and are usually quite legible. If desired, however the letters can be highlighted by painting in a contrasting colour. We have found the best results from using cellulose paint pens, available to buy from most major stationers, online or from our offices (Telephone +44 (0) 1789 450522).

General

If possible, paint everything before installation, this allows all surfaces to be painted (whether seen or not).

For the unfinished wooden pattresses we suggest that you apply a primer, then undercoat and then one coat of the final colour. Once installed we recommend that you apply a second coat of the final colour in-situ. This allows any screw heads etc. to be matched to the paintwork, if necessary.
